

If There's Love

Citizen Cope

Where you been hidin'?
I'm believing
You give me life
Life my dear
You give me strength to beat the odds
And overcome my fears
You make me feel like I belong under the sun
You never grow old
Because you're forever young

If there's love...
I just want to have somethin' to do with it
I just wanna feel yours

When I'm alone you make me feel at home
If I give enough of you
To a higher place we'll go
You make me feel like I belong under the sun
You'll never grow old
Because you're forever young
And you know that you got my tomorrow baby
Today and yesterday
Believe that you've got my tomorrow baby
I'll hold you close as far as I can see

[chorus]
