

## Keep Askin'

Citizen Cope

Keep askin'  
How long will my love it last  
Always  
Keep askin'  
How long will my days they pass  
Always  
Keep asking me my love  
Keep asking help from above

There comes a time  
And a place when  
You kind of mind living  
Day to day when  
Country to country  
And state to state where  
They all got their leaders  
Who all push their wheight  
Another mother lost  
Another child today  
Bet tommorow that will  
Be yesterday's  
Bet you double that  
Some people enraged  
On the corner  
With their voices  
Raising judgement day

Keep askin'  
How long will my love it last  
Always  
Keep askin'  
How long will my days they pass  
Always  
Keep askin' me my love  
Keep asking help from above  
Keep askin' me my love  
Keep asking help from above
