

Keep Askin'

Citizen Cope

Keep askin'
How long will my love it last
Always
Keep askin'
How long will my days they pass
Always
Keep asking me my love
Keep asking help from above

There comes a time
And a place when
You kind of mind living
Day to day when
Country to country
And state to state where
They all got their leaders
Who all push their wheight
Another mother lost
Another child today
Bet tommorow that will
Be yesterday's
Bet you double that
Some people enraged
On the corner
With their voices
Raising judgement day

Keep askin'
How long will my love it last
Always
Keep askin'
How long will my days they pass
Always
Keep askin' me my love
Keep asking help from above
Keep askin' me my love
Keep asking help from above
