

More Than It Seems

Citizen Cope

Your so Pure (ah)
Your heart is full of
All i ever need
And i cant take it
I cant speak
So i just sit here and stare

My adorer, let me tell you a story
About someone in me
Now its gunna be surrounding me

Break my silence

Yea its a little bit more than it seems
We can make outside my dreams
Yea its a little bit more than it seems
We can make outside my dreams

My adorer, they say i dont know ya
I sure do know
Sure do miss ya
I can't take it
I can't take it

My adorer, your heart is full of
All ill ever need
I cant take it
I cant speak

Break my silence

Yea its a little bit more than it seems
We can make outside my dreams
Yea its a little bit more than it seems
(We can make it) We can make outside my dreams
Yea its a little bit more than it seems
(We can make it) We can make outside my dreams
Yea its a little bit more than it seems
(We can make it) We can make outside my dreams
Outside my dreams
