

Off the Ground

Citizen Cope

Life's ride down the river
Everyday getting clearer
All the while getting nearer
We all belong

This place we've been delivered
Take the good with the bitter
Some may dismiss you
We all belong

When you and I
Were so far
We were so far
Away from here
All my life been gambling times
Been evading mines
Away from here

And the roads they'll take you down
And the winds will sweep your feet off the ground
And the wheels they won't turn around
On that road that leads outta town

I've found
When you and I were so far away
We were so far
Away from here
