

# Somehow

Citizen Cope

Cause you believe me somehow  
You're second to none  
And you got my love  
You got me under the gun  
Cause you will see me somehow  
Ill stay with ya, stay with ya, stay with ya tell the end

Cause you believe me somehow  
You're second to none  
And you got my love  
You got me under the gun  
Cause you will see me somehow  
Ill stay with ya, stay with ya, stay with ya tell the end

You got your coat on  
Got me focused on  
Dont move and slow motion  
Every time I see its just enough  
Cause you and me were ment to be together in love

And I said all my life  
See I been spending all this time  
Everytime I see, its just enough  
Cause you and I were ment to be together in love

You got your coat on  
Got me focused on  
Dont move and slow motion  
Every time I see its just enough  
Cause you and I were ment to be together in love

And I said all my life  
See I been spending all this time  
Everytime I see, its just enough  
Cause you and I were ment to be together in love

[Chorus x2]
