

## Summertime

Citizen Cope

From the hot to cold, spring to the fall  
You and I was meant to be together in love  
Something 'bout a wound down in my soul  
Something on my mind easy be told

3 steps, 3 steps behind these 2 hands  
These 2 hands of mine  
You've got that 1 thing that can make a man blind  
And grow in my past fame

In the summertime, in the wintertime  
You talk to us, you talk to us  
In the summertime, in the wintertime  
You talk to us, you talk to us

In the summertime, in the wintertime  
You talk to us, you talk to us  
In the summertime, in the wintertime  
You talk to us, you talk to us

From the hot to cold, spring to the fall  
You and I was meant to be together in love  
Something 'bout a wound down in my soul  
Something on my mind easy be told

3 steps, 3 steps behind these 2 hands  
These 2 hands of mine  
You've got that 1 thing that can make a man blind  
And grow in my past fame

In the summertime, in the wintertime  
You talk to us, you talk to us  
In the summertime, in the wintertime  
You talk to us, you talk to us

In the summertime, in the wintertime  
You talk to us, you talk to us  
In the summertime, in the wintertime  
You talk to us, you talk to us
