

Over The Fence

Citizen Fish

Can't stop this constant nod
Just met two peas from the next-door pod
Seems like making a brand new friend
But all this shaking never ends
Invitations to join in things
I haven't done since seventeen
Photos from places I still haven't been
Postponing & phoning faces unseen
Slightly nervous...
Thinking backwards...
Up & over it!
Someone else's experience
Someone else is over the fence
No more blank comparison sketch
No more false impressions left
Had to go...
Things to do, you know how it is...
It went from this to further over and back again
Always make it back again
Further over and back again
Always make it back again
Further over and back again
Always make it back again
Back again
Didn't you & me met in somewhere before -- Back again
Haven't we met somewhere nextdoor -- Back again
Haven't I seen your face before
