## **Paradise**

## **City and Colour**

I'm looking for a way out For a place that no one knows Please take me away now Somewhere it don't feel so cold

Troubles on my mind Troubles on my mind For the rest of the days I've cried For the rest of the days I've cried

I'm searching for a paradise That I just can't seem to find I'm searching for a paradise For the time of my life

I'm searching for a paradise That I just can't seem to find I'm searching for a paradise Gonna go where the spirit guides

All alone

My silhouette is fading Past the point of safe return Now my body's aching As both ends of the candle burn

My heart is beating slow My heart is beating slow It's worn me to the bone It's worn me to the bone

I'm searching for a paradise That I just can't seem to find I'm searching for a paradise For the time of my life

I'm searching for a paradise That I just can't seem to find I'm searching for a paradise Gonna go where the spirit guides

All alone All alone All alone All alone

I'm searching for a paradise That I just can't seem to find I'm searching for a paradise For the time of my life
