

All The Right Moves

City Lights

You walk around in your hometown,
With friends we used to know.
Memories of her and me,
Are all that is left to show.
The places where we'd sleep and
Dream about where we would go.
(Na na na nana nana...)

If I could fall in love again,
I'd fall in love with you.

Now instead of her,
I dream about the things we'll do.
This town is full of ghosts,
From all the things that I've been through.
The summer skies that shine so bright
The day that I met you.
(Na na na nana nana...)

If I could fall in love again,
I'd fall in love with you.
If I could fall in love again,
I'd fall in love with you.
I'd fall in love with you.

[Musical break]

You best believe that if I had another chance,
I'd do it all again.
No regrets.
I'm never looking back.

If I could fall in love again,
I'd fall in love with you.
If I could fall in love again,
(You best believe that if I had another chance, I'd do it again
)
I'd fall in love with you. (no regrets)

I'd fall in love with you.
