

Lawnmower

City Lights

I regret that I hung on to every word
Cause your voice is the worst sound that I've ever heard
We created such memories
You ripped them apart
Like the time that you pushed your
Lawnmower right over my heart

And I just wanted you to know
That every time I see that movie
I think of all the time and money
I wasted on you
I was wasted on you

So don't forget me
When he doesn't treat you the same
Don't bother calling
When you realize you made a mistake

I regret I believed you in every lie
All the boys that you claimed
Were not between your thighs
Just the thought of it makes me
So terribly sick
All the parts of his body
On which you've been placing your lips

And I just wanted you to know
That every time I see that show
I think of all the lazy mornings
I wasted with you
I was wasting away with you

So don't forget me
When he doesn't treat you the same
Don't bother calling
When you realize you made a mistake

Realize you made a mistake
Don't you think for a second you can come back to me

So don't forget me
When he doesn't treat you the same
Don't fucking call me
When you realize you made a mistake
