

# My Entire Life

City Lights

It all started with a kiss  
And who'd have thought  
That you and I would end up like this  
When we first met  
I thought you were just another girl  
I'd push away  
But there was something  
Oh so different about you  
And I learned quickly  
I could not live without you  
Your eyes were meant  
To be locked with mine  
From now until the end of time

Carry me away  
Anywhere as long as you are there  
I need to see your face  
I don't care how long it takes  
If I have to wait forever  
You know I will  
Because I've never felt  
Anything like this  
In my entire life

I'm so sick of emptiness  
When we're apart  
It hurts so much that I can't handle it  
The biggest piece of me is missing  
You should be here with me just kissing  
But all the waiting  
Is always worth it  
'Cause us together  
Is always perfect  
And even through long distances  
And drawn out time  
I know that you'll always be mine

Carry me away  
Anywhere as long as you are there  
I need to see your face  
I don't care how long it takes  
If I have to wait forever  
You know I will  
Because I've never felt  
Anything like this  
In my entire life

But if the distance is too much for you  
You can bury me alive  
Because now that I've tasted perfection  
Nothing else could possibly satisfy me

Carry me away  
Anywhere as long as you are there  
I need to see your face  
I don't care how long it takes  
If I have to wait forever

You know I will  
Because I've never felt  
Anything like this  
In my entire life
