

Night On The Town

City Lights

I offered her a drink
She said she'd like to have sex on the beach
I said that's alright with me

And things got a little crazy,
One thing lead to another
Now it's the next morning
And now I'm telling all the guys

I can't help if I was wasted last night
Or if I did things I regret
But all in all I think I did o.k

O.k (o.k)
I know it's hard to remember yesterday
But if you try real hard
You'll remember you and me
You'll remember you and me

Late night we hit the bars
Don't have to go real far to get what we need
I said shots are on me

Things got a little wild
And I like to see her smile
Let's just do one more
And then we'll call it a night

I can't help if I was wasted last night
Or if I did things I regret
But all in all I think I did alright
'Cause your girl is coming home with me tonight

O.k (o.k)
I know it's hard to remember yesterday
But if you try real hard
You'll remember you and me
You'll remember you and me

We might not remember
Exactly what we did (exactly what we did)
We'll remember who we did it with
And when we look back on those times that we shard together
I promise I will never forget
I'll never forget my friends

O.k (o.k)
I know it's hard to remember yesterday
But if you try real hard
You'll remember you and me
You'll remember you and me

O.k (o.k)
I know it's hard to remember yesterday
I was wasted last night (but if you)
Or if I did things I regret (try real hard)
But all in all I think I did alright (remember you and me)

'Cause your girl is coming home with me tonight (remember you and me)

You'll remember you and me
