

## Be A Man

City Sleeps

Whoo

And so she dances in your crystal ball  
The ballerina of the baby dolls  
Under a spell you only call her name  
Only her answer can undo your pain  
Her swirling hand is like a magic wand  
It's gonna hurt this time the fairy dust is gone

Chorus:

Be a man  
Don't let her do that to you  
Be a man  
Don't let her do that to you

She's a bad girl gets to cry all day  
The darkness is the only place that you play  
The broken veins from all your wounds are raw  
Your not the only boy that waits for her call

Chorus

Oh well  
She's on the dark side  
She's on the dark side

Oh well  
And it will neutralize  
And it will neutralize

Chorus
