

Be A Man

City Sleeps

Whoo

And so she dances in your crystal ball
The ballerina of the baby dolls
Under a spell you only call her name
Only her answer can undo your pain
Her swirling hand is like a magic wand
It's gonna hurt this time the fairy dust is gone

Chorus:

Be a man
Don't let her do that to you
Be a man
Don't let her do that to you

She's a bad girl gets to cry all day
The darkness is the only place that you play
The broken veins from all your wounds are raw
Your not the only boy that waits for her call

Chorus

Oh well
She's on the dark side
She's on the dark side

Oh well
And it will neutralize
And it will neutralize

Chorus
