

Big Girl

CIV

She always waits to have her say
Wonders if today will be the day
Day dreams are what she's all about
Have you ever seen her when she's laughing

All grown up, looking good look out now she's a Big Girl
Taking charge, turning heads look out world,
She's a Big Girl now

Hates all her dolls and baby toys
Would rather flirt with all the boys
She'll kick, she'll fight until she sees
How to be the type of girl she's always wanted to be

All grown up, looking good look out now she's a Big Girl
Taking charge, turning heads look out world, she's a Big Girl now
Where to go, what to do when no one's looking out for you
You gotta look out for yourself (2x)

No one cares where you've been
It reminds her
You gotta look out for yourself
Comes a time to she'd your skin no time to wonder
She's gonna look out for herself
She's a Big Girl now

All grown up, looking good look out now she's a Big Girl
Taking charge, turning heads look out world she's a Big Girl
Where to go, what to do when no one's looking out for you you gotta look out
For yourself (2x)
She's a Big Girl now!
