

I hear what you're telling them, telling me
How can you take yourself so seriously
Why don't you save it for someone
Who'll be waiting for your bullshit lies
Now it's time to close the door

I can't, I won't, it's all I can take
I live my life in a different way
I can't, I won't, it's all I can take
Living life for everyday

You don't have anything nice to say
No support for anything goin' my way
How are we to grow nothing real for you to show the enemy
Telling me
Nothing hat I need to know

I can't, I won't, it's all I can take
I live my life in a different way
I can't, I won't, it's all I can take
Living life for everyday

What did you say?
Why don't you tell it to me
I hear what you say
But it's never to me
No it's never to me
Sorry if there's nothing going your way X3
I'm not takin' it, no I'm not takin' it

I can't, I won't, it's all I can take
I live my life in a different way
I can't, I won't, it's all I can take
Living life for everyday
