

I hear you washed your hands  
Turned your back,  
Now you've had enough  
Because you're too tired  
You're getting old  
Your time is up

I won't give up my life  
All my life  
I'll never give in to the ordinary  
Life all my life  
I never gave in to the ordinary

Does it hurt to live your life for someone else  
You want to pin the blame  
There's no one to blame except yourself

I won't give up my life  
All my life  
I'll never give in to the ordinary  
Life all my life  
I never gave in to the ordinary

You're shut down  
Now it's time to settle down  
What you're looking for  
Didn't turn out to be what you found  
Now you fit in to a world  
That holds you down  
Tell me why  
You want to be like everyone else  
Just like everyone else

I went the other way X4
