

# Something Special

CIV

You'll get nowhere  
And that's all you hear  
And that all your friends are fools  
You'll get nothin'  
And you don't fit in  
And they'll tell you, "You were born to lose."

You know you'll never leave it  
But you don't want to believe em  
But you just can't leave it alone  
You say you're gonna do it  
So you better get to it  
But you just can't do it alone  
It takes all you've got to make it through the day  
Just another day  
Just another day  
Just another day  
You know you're something special  
You know you're something special  
You know you're something special

They judged your book  
By the way you look  
And they don't care what's inside  
And that's all a part  
Of growing up  
And they'll never hurt your pride  
But now you're turned around  
And you're upside down  
And there's nowhere else to hide  
Just stand your ground  
Don't let me down  
I know you'll make it through the night

You know you'll never leave it  
But you don't want to believe 'em  
But you just can't leave it alone  
You say you're gonna do it  
So you better get to it  
But you just can't do it alone  
It takes all you've got to make it through the day  
Just another day  
Just another day  
Just another day  
You know you're something special  
You know you're something special  
You know you're something special

Just another day  
Just another day  
Just another day  
Just another day

Today I'm gonna wake up  
Smile on my face  
Today I'm gonna wake up  
Smile on my face
