

# Soundtrack For Violence

CIV

Try to make this scene your home  
But you just can't seem to leave the kids alone  
Beat down for standing up to you  
It's coming back around  
I'm telling the truth

Go home!  
This is not your soundtrack for violence

Violence

Some people might look up to you  
Maybe they have a fucking problem too  
This time I'll forget my fear  
It's not your song and we're making it clear

Go home!  
This is not your soundtrack for violence
