1989

Over the hollowed hearts of the east bay I live for nothing, if not today When you left you didn't even say goodbye I saw it in your eyes man, you didn't even try

It's been so long now, since I've laid you down Come back, come back to me (2x) Times we're tough, but we're still family Come back, come back to me...

Over the lines that divided my country The good and bad that make up today When I left I didn't say goodbye You saw it in my eyes, I didn't even try

It's been so long now, since I've laid you down Come back, come back to me (2x) I buried my heart, in the east bay Come back, come back to me....
