

## You Got It

Civet

Stand up for what you're fighting for  
Shoot up, I don't love you anymore  
I heard you say, I saw you play,  
Don't come around no more  
Stand up for what you're fighting for

[Chorus:]

You got it, what you wanted...  
You got it, what you asked for...

Spend your nights all high on life,  
Like when I was with you  
Shoot up, just like you used to do  
So deep inside you made me cry,  
How could you break me through  
Back you up you can't do it like I do
