

Plagued by Images

CKY

Lock me up inside my room
Leave me without toys and food
Keep that monster in my bed
Just remember I'm not dead

You forget my memory lives way beyond these walls!
You forget my indecision's taking all control

Once in a far land I grabbed you
And you woke me up to my origin

People have to understand my innocence has gone!

Go beyond my urge
Or make an effort to
Living on my own, plagued by images!

Once in a far land I grabbed you
And you woke me up to my origin
