

Planetary signs:

An obsolete mind, oxygen deprivation, beyond cloud nine  
Do us all a favor and end your life  
If I grow infectious it keeps you in line  
Blind in my one mind's eye  
You do and you'll die  
Dividing the attention to keep me in line  
Do us all a favor and end your life  
If I grow infectious it keeps you in line!!  
Its a narrow feeling when you love everything you find  
But nobody wants you with your planetary mind  
I was thrown aside, my comprehension failed when I tried  
My natural battery died  
Nobody wants you with your planetary mind
