

## Plastic Plan

CKY

These things don't belong  
On my list at all  
Culture is white mixed with red  
But I won't be caught dead

One day I'll try  
To give the world a view  
To alienate the prime  
Performing it's fictitious and confined  
I believe it I'll get through to you don't leave yourself entom  
bed  
There's a way to change your mind  
I'm waiting for you to realize that

We live within the plastic plan  
Forming to ban the plastic plan

You've stayed way too long  
I'm aiming for you all

One day I'll try  
To give the world a view  
To alienate the prime  
Performing it's fictitious and confined  
I believe it I'll get through to you don't leave yourself entom  
bed  
There's a way to change a mind  
I'm waiting for you to realize that

We live within the plastic plan  
Forming to ban the plastic plan  
We live within the plastic plan  
Forming to ban the plastic plan (twice)
