

Stripped Your Speech

CKY

Hope... could it be so lost?
Or is it underappreciated just like the rest?

Death... could it be so bad?
Or is it underappreciated just like the rest?
Just like the rest...

How can you stand there and tell me that I don't remember this place?
How can you speak when it's clear that your words have stripped your speech?

Pray... you practice everyday
The meaning is to be appreciated just like the rest

Faith... can not speak for you
Or are you underappreciated just like the rest?
Just like the rest...

How can you stand there and tell me that I don't remember this place?
How can you speak when it's clear that your words have stripped your speech?

Gone... I wonder where you are
And hope that you're appreciated unlike the rest
