

Is it alright
To feel this way so early?
But am I blind?
All the sweet nothings
Falling in love over night

Didn't mean to get so close
And I know that I should probably go
But I got this feeling
Tell me girl I gotta know

Touch you softly I call you up late at night
Know that it isn't right
But you can be my one and only
You get me in the mood
Know what I'm trying to do
Do you think that we could move
Closer baby I want you

And all my life
Been wanting this forever
And in my mind
Think of ways to ask you
Why don't you come over sometime?

Didn't mean to get so close
And I know that I should probably go
But I got this feeling
Tell me girl I got to know

Touch you softly I call you up late at night
Know that it isn't right
But you can be my one and only
You get me in the mood
Know what I'm trying to do
Do you think that we could move
Closer baby I want you, yeah

And I don't care what they say
And I don't care what they say
Care what they say to me
I'm doing it differently
Baby, I'm doing it differently
