

In Love We Trust

Clan of Xymox

Straight through the heart
My body and soul
I don't want these strings
It's time to move on
I can't change my way
Don't pick my brain
It's just causing pain
Inflating by the day

In love we trust
they say we must
In love we trust
they say we must
The sheep in the flock
On the chopping block
In love we trust
In love I lust
Lust, we trust lust

I don't like you anymore
I stay the way I am
I don't want to love again
I don't give a damn
A damn, a damn
I don't give a damn

Two defensive eyes
We live on lies
Too far apart
I can't let you in
This trail of tears
Built up in years
For better or worse is now our curse

In love we trust
they say we must
In love we trust
they say we must
Lust, we trust, lust

I don't like you anymore
I stay the way I am
I don't want to love again
I don't give a damn
A damn, a damn
