

Out Of The Rain

Clan of Xymox

I've got a crush on you
You turn me on
It's hitting home again, what I left behind
I don't want to sleep alone
I don't want to go home
I don't want to walk the streets
I want to satisfy your needs
Cos, that's what life's about
Cos, that's what love's about

She says "no,no,no,no.no,, never again"
She says "no,no,no,no,no , never again"

You've got nothing to loose
So just hear me out again
I don't understand why people say I just don't give a damn
I don't want to make the same mistake
I don't want to waste another day
I don't want to play another game
I want to make it up this way
Cos, that's what life's about
Cos, that's what love's about

She says "no,no,no,no,no, never again"
I say, no,no,no,no,no never again

Take me out of the rain,
Take me out of the rain

Some say, I stepped out of line
Some say, just leave it all behind
It's never too late, to turn it around
It's never too late, to turn it around
All I want is you tonight
All I want is you tonight, to

Take me out of the rain
Take me out of the rain

How can I change your mind
How can I change your mind to

Take me out of the rain
Take me out of the rain

Rain, rain rain.
