

# Out Of The Rain

Clan of Xymox

I've got a crush on you  
You turn me on  
It's hitting home again, what I left behind  
I don't want to sleep alone  
I don't want to go home  
I don't want to walk the streets  
I want to satisfy your needs  
Cos, that's what life's about  
Cos, that's what love's about

She says "no,no,no,no.no,, never again"  
She says "no,no,no,no,no , never again"

You've got nothing to loose  
So just hear me out again  
I don't understand why people say I just don't give a damn  
I don't want to make the same mistake  
I don't want to waste another day  
I don't want to play another game  
I want to make it up this way  
Cos, that's what life's about  
Cos, that's what love's about

She says "no,no,no,no,no, never again"  
I say, no,no,no,no,no never again

Take me out of the rain,  
Take me out of the rain

Some say, I stepped out of line  
Some say, just leave it all behind  
It's never too late, to turn it around  
It's never too late, to turn it around  
All I want is you tonight  
All I want is you tonight, to

Take me out of the rain  
Take me out of the rain

How can I change your mind  
How can I change your mind to

Take me out of the rain  
Take me out of the rain

Rain, rain rain.
