

## She's dangerous

Clan of Xymox

It took me ages to complete  
the other lines underneath  
Now they are here after all  
Like the sun rise and falls  
Time means nothing to me now  
She'd cast a spell and now I am bound  
She's the force I always feared  
Now I'm lost for years

She's dangerous, she's dangerous

I'm crouching down on my knees  
Cos she's so hard to please  
And I am all messed up now  
It simply has to stop somehow  
I'd let her soak up my soul  
Now I feel she is in control  
There's no one to believe  
I don't want her here

She's dangerous, she's dangerous

Now you know the truth  
She knows it too

She's dangerous, she's dangerous

I met her on line  
She took a step back  
I saw her undress  
She's like a goddess

She called me honey  
She called me baby  
She showed me everything  
And wanted to collect  
Danger zone, she is in control  
Danger zone, she is in control

She's dangerous, she's dangerous
