Tonight

Clan of Xymox

Everytime i look at you
I wonder what goes on
Behind your happy smile
It's something really strong

Full moon swings around Full moon swings around On this secret night

Time will fly tonight Time will die tonight Tonight

Everytime you look at me
I wonder what goes on
If only i could swim
In those drowning thoughts

Tonight

Let's roll down the stairs Soon we'll follow everyone Let's roll down the stairs Soon everybody follows everyone

'Cause time flies only with you
Time dies only with you
Time will fly tonight
Time will die tonight
Tonight
Time dies only with you
Only with you
