

Wake Up my Darling

Clan of Xymox

Wake Up my Darling

Wake up my darling
The day means no harm
Wake up my darling
The sun has its charm
The world is coming bright and alive
I want to see you active and revived
Active and revived

Rise and shine
Now open your eyes and greet the day I am sure you recognize
Now open your eyes
Let In the light
And hear the birds in the trees singing just for you and me

Wake up darling, wake up now
Wake up darling, wake up now
Lift your sleepy head and get out of bed
Leave your warm nest and get on dressed
Rise and shine
Now open your eyes and greet the day I am sure you recognize
With circuits charged a new day starts
Leave the land of Nod
The coffee is hot and breakfast is served on your spot
