

## Written in the stars

Clan of Xymox

All around everybody shouts  
Their insides out, hear the laughing crowd  
The wind blows cold, summers gone by  
Wander on the boulevards  
Up and down  
It's written in the stars  
It's written on the walls  
You will defy my heart  
Take my soul  
This frame of my mind brings me here  
Goes up in flames and fades away  
Like the mirror sucked my face  
From all it's grace  
Lost my faith, lost my sight  
Eyes like ice  
Ow!  
She's deeper than the sky  
She's made of gold  
She's like the rising sun  
It's written in the stars  
It's written on the walls  
You will defy my heart  
Take my soul  
Faith, written in the stars  
Faith, written on the stars  
Face the change of life  
Face the chains of love
