Horizon Of Ego Annihilation

Clandestine Blaze

Seen the annihilation in Horizon.

Been on the edge of cathartic purification

Strife of the worlds colliding - Ripping self apart.

Distracted wreck crawling to directions of blind man Unable to see victorious path!

Unable to go through transformation!

It awaits, it demands

It commands for the sacrifice.

So little to give so close to go

Horizon of Annihilation ahead

The birth as new life form

Higher than glorified shell

All has been given up

Now nothing stands on the Way!
