

Ancient Forest

Clannad

Came upon an ancient forest
A guided path had led me there
Walking through the mystic forest
The legend tales and times gone by

Voices whisper in the black night
Refection deep in wooded lands
A floating mist that circles shadows
The legend tales and times gone by

Giant trees are folding me
In the many years and ages past
Will they ever share the answer
Of the legend tales and times gone by?

Walking through the mystic forest
I'm walking through the mystic forest
