

Little Moments

Clap Your Hands Say Yeah

When is the old time to waster unpleasant...
We are froze apart
.. to take your hand
Gracious creator
You should not even know
You gonna live long!
You gonna live long!
You gonna live long!

If only you should turn on!
You gonna leave them

Try to... it shows nice away
The second times exposure
Explosions we begin
If only we be dreaming
If fantasies be...
Reality it's a mystery which made us ...
Little moments, little, little moments
All over we should turn!
Little moments, little, little moments
All over we should turn!
