

Hoodoo Man

Eric Clapton

Well, I wonder, what's exactly the matter
Child you know the time
Seemed like an hour
Everything had changed

But I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man

Well now, I buzzed your bell this morning
You had your elevator run slow
I buzzed your bell in, woman
Take me on the third floor

Well, I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man

Well, I buzzed your bell this morning
You had your elevator run slow
I buzzed your bell in, woman
Take me on the third floor

I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man

Well, I wonder, what's exactly the matter
Child you know the time
Seemed like an hour
Everything had changed

I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man
