

Low Down

Eric Clapton

Low down, low down dirty shame
Low down, low down dirty shame
I've had nothing but the blues
Since I heard your name

No more, no more blues today
No more, no more blues today
I've been fond of you baby
Had me crying everyday

I've been waiting, waiting so long for you
Waiting, waiting so long for you
It was good news sometimes
Sometimes, it was bad news

Low down, low down dirty shame
Low down, low down dirty shame
I've had nothing but the blues
Since I heard your name

I've been crying, crying, crying all night long
Crying, crying all night long
I had nothing but the blues
Since you came along

Low down, low down dirty shame
Low down, low down dirty shame
