

# Somebody's Knockin'

Eric Clapton

Somebody's knocking  
Somebody's knocking on my door  
Well, it must be my woman  
Coming 'round here for more

Somebody whispers  
Somebody whispers in my ear  
It must be my woman  
I can feel her when she's near

O-o-o-o, she can get right down  
Ah, it must be my woman  
Make me love when I am down
