

## Till Your Well Runs Dry

Eric Clapton

You said you loved me and then you left  
Broke every promise, you won every bed  
You never miss your water till your well runs dry!

R: Tell me, tell me what you gonna do  
When your, when your well runs dry  
What you gonna do, when your, when your well  
runs dry?  
What you gonna do when your well runs dry  
I'd like to know  
What you gonna do when your well runs dry?

Listen to me, darling  
You cheat and you lie  
How you come in running  
Running, wanting second try  
You never miss your water  
Till your well runs dry!

R: Tell me...

Sat down and sighed  
And I heard you're packing  
But you said nothing  
I watched you pass me by.  
I know you gonna miss me  
You're gonna be so blue!

R: Tell me, tell me what you gonna do  
When your, when your well runs dry  
What you gonna do, when your (feeling good?)  
When your well runs dry?  
What you gonna do when your well runs dry  
What you gonna do, when your (feeling good?)  
When your well runs dry?  
What you gonna do when your well runs dry  
I'd like to know  
What you gonna do when your well runs dry?

You never miss you water till your well runs dry!

R: Tell me...

What you gonna do when your well runs dry?
