

Here I Am

Clare Maguire

I was afraid of not giving in
I've had fears underneath my skin
Let's get together and stay together
For the rest of our lives, whoa, the rest of our lives

Here I am, here I'll stand
With you everyday
Here I am, here I'll stand
With you everyday

With you everyday

I was wishing and dreaming
And now I got you I ain't leaving, you better believe
I've been waiting and praying
And now the waiting's over, come a little bit closer

Here I am, here I'll stand
With you everyday
Yeah, here I am, here I'll stand, oh
With you everyday

With you everyday

See you're the only one, the only one
And I get love, another day without your love
Say the one thing I know is true
Said you believe and I believe in you now, now, oh

Here I am (here I am) and here I'll stand (here I'll stand)
With you everyday
Yeah, here I am (here I am) and here I'll stand (here I'll stand)
Oh, with you everyday

With you everyday
With you everyday
With you everyday
With you everyday
