

## Here I Am

Clare Maguire

I was afraid of not giving in  
I've had fears underneath my skin  
Let's get together and stay together  
For the rest of our lives, whoa, the rest of our lives

Here I am, here I'll stand  
With you everyday  
Here I am, here I'll stand  
With you everyday

With you everyday

I was wishing and dreaming  
And now I got you I ain't leaving, you better believe  
I've been waiting and praying  
And now the waiting's over, come a little bit closer

Here I am, here I'll stand  
With you everyday  
Yeah, here I am, here I'll stand, oh  
With you everyday

With you everyday

See you're the only one, the only one  
And I get love, another day without your love  
Say the one thing I know is true  
Said you believe and I believe in you now, now, oh

Here I am (here I am) and here I'll stand (here I'll stand)  
With you everyday  
Yeah, here I am (here I am) and here I'll stand (here I'll stand)  
Oh, with you everyday

With you everyday  
With you everyday  
With you everyday  
With you everyday
