

Another Lifetime

Claude Kelly

Uhh..baby
Ohh

Last night when I was all alone
cleaning my crol it out
I thought remember love and let it..to road
before you get my street fade it out

He's got me in my tracks, got a flash back
Now I'm feeling all nostalgic
with every word I'm lead memory swept
thinking me no way around it

Now wait, miss you in my life, oh baby
but if it's too painful to see now
but I know some place somehow
that we are gonna reunite oh baby
now don't ask me when
but I know that I'll see you again
nah nah

Only hurt each other baby
to find the love, I love you baby
when you close your eyes tonight
know I'll never lifetime baby
