

# Back To Love

Claude Kelly

Oh oh yeah  
Oh oh yeah

Listen,  
The same old things is getting old  
You come home late and I'm alone  
So what you think bout tryna go  
To the next level let's upgrade, come on  
See love's like a rose  
It needs your full attention for it's growth  
See I'm willing to work if you put in the work  
Just let me know

So if you're down baby why don't we go  
Back to love  
And we might fall over again if we go  
Back to love  
I know you wanna keep your women happy don't ya  
So let's go back to love  
Come with me  
Let's go back to love  
How bout a trip somewhere  
Let's go back to love  
Talking about a dozen red roses  
Let's go back to love  
See it's the little things that's gonna make me stay with ya  
So let's go back to love  
Let's go back to love

See time don't wait for anyone  
You sleep on me then I'll be gone  
My love is true, you're all I want  
But you gotta meet me halfway boy come on  
Cause love's like a rose  
It ain't gone ever last if it gets too cold  
But I'm willing to work if you put in the work  
Just let me know

Cause if you're down baby why don't we go  
Back to love  
And we might fall over again if we go  
Back to love  
I know you wanna keep your women happy don't ya  
So let's go back to love  
Oh let's go back to love  
How bout a trip somewhere  
Let's go back to love  
Talking about a dozen red roses  
Let's go back to love  
See it's the little things that's gonna make me stay with ya  
So baby back to love  
Let's go back to love

Don't get me wrong see you're the best thing that I've ever known  
But I just want our love to be strong  
That's why I'm telling you, you need to give me more  
A lot of girls would call it quit

At the first sign their man ain't perfect  
I believe what we've got is worth fighting for

Cause if you're down baby why don't we go  
Back to love  
And we might fall over again if we go  
Back to love

I know you wanna keep your women happy don't ya  
So let's go back to love  
Oh let's go back to love  
How bout a trip somewhere  
Let's go back to love  
How bout a dozen red roses  
Let's go back to love  
See it's the little things that's gonna make me stay with ya  
Back to love  
Come on baby  
Let's go back to love

Yeah yeah yeah  
Oh let's go back to love  
Yeah  
Will you go back to love  
I'm going back to love
