

I Can Change Ya Life

Claude Kelly

Ohh...

Just give me a little more time

A little time to work out these words in my mind

Ohh...

I wish that you could look in my eyes

And see I'm really hurting so deeply inside

Cause all the things that I said I know I was wrong

When I told you pack you're things I took it too far

(Chorus)

He used to abuse you, he only used you

Get on my level,

I can change you're life

If you let me, I can do it

I know just what you need

I can change you're life.

I can make you happy

Girl if you let me

I'll make you're thoughts all complete

I can change your life.

I'm sorry

I can be a little stubborn it's true

And I know sometimes that I take my pain out on you

Woah...

But you know me best you know what I've been through

And you should know by now that over all I really love you

Cause all the things that I said I know I was wrong

When I told you pack your things I took it too far

(Chorus)

I know just what your needin

Let me provide it

There's no need to fight this thing

The silly little things I slip and say

You're ready to move on

Leave me here and walk away

It would only take one word to make you stay

& that's sorry.

Yes one word... that's all... why's it soo hard to say

Hard to say I'm sorry...

It's one word.

No more, to get you home today.

But it's hard to say I'm sorry.

Baby I'm sorry.
