

If I Had You

Claude Kelly

If you were my man,
I was your woman.
We were in love,
Here's what would happen.
I'd show you things,
You would be so open.
I know I never will.

But if I had you,
All of the things I would do.
Everyday we would start something new,
And I'd put my world around you.
Oh baby, if I had you...

If that girl on your arm,
Wasn't in the picture.
And if that ring,
Wasn't on her finger.
I would move in,
And what I was after?
God know she's a lovely girl.

But if I had you,
All of the things I would do.
Everyday we would start something new,
And I'd put my world around you.
Oh baby, cause if I had you...
All of the things I would do.
Everyday we would start something new,
And I'd put my world around you.
Oh baby, cause if I had you...

Why am I here on the outside,
With all these feelings kept inside.
Why is this never the right time,
Now I'm so confused.

If I had you,
All of the things I would do.
Everyday we be something brand new,
Oh baby, if I had you,
Ohh... had you,
If I had you.
