

More Than I Can Take

Claude Kelly

Standing at the edge of breaking up
I hope it's not too late for speaking up
Cause now I know
That watching you walk away
Is way too rough for me, baby
So please don't leave

Cause your not here with me
It's more than I can take
Your like the air I breathe
Without you my life just breaks
At first I thought I was invincible
Acting like my heart could'ntbreak
But I can't let you leave
Cause it's more than I can take
I said it's more than I can take

Tell me how we came to this
What was it that destroyed our happiness
Where did it go
How did our love turn into such a mess
Well I'm down to do anything to
Keep you by my side
Cause girl I need you in my life

Cause your not here with me
It's more than I can take
Your like the air I breathe
Without you id just fade away
At first I thought I was invincible
Acting like my heart could'ntbreak
But I can't let you leave
Cause it's more than I can take

I thought that I wouldn't miss you at all
I thought that I could break up and move on
I thought that id be fine with you gone
But it's more than I can take

Cause your not here with me
It's more than I can take
Your like the air I breathe
Without you id just fade away
At first I thought I was invincible
Acting like my heart could'ntbreak
I can't let you leave
Cause it's more than I can take
It's more than I can take
It's more than I can take
