That's When You Save Me

Claude Kelly

Did you ever feel lost
Like no one understands you
And you don't have
The strength
To talk to anyone who puts
A smile on your face
Having one of those days
Where everything is wrong
My inspiration's gone
I finally reached the point
Where it's more
Then I can take

[Chorus:]
It's been
A long, long journey
Getting here
I'm feeling
Overcomed and weary
And the tears fall
About to lose it all
That's when you calm the river
That's when you silence the sea
I count on you
To deliver before I even speak
That's when you quiet
Every storm
God knows how to stop the rain
That's when you, that's when you
That's when you save me

Did you ever feel tired
But you just can't sleep
It's hard enough to breathe
And the pressure of pleasing
Everyone makes
Makes it one of those days
You feel the world's
Against you
You're walking
In the shadows
Thinking maybe
I should just turn
And walk away

(Chorus)

You're the reason why
I still keep
Keep moving on
You're the reason why
Good things keep
Happening to me
Without you, why
I don't know where I'd be
It never seems to amaze me
Everytime you save me

That's when you
Calm the river
That's when you
Silence the sea
I count on you to deliver
Before I even speak
That's when you quiet
Every storm
Only God knows
How you stop the rain
That's when you
That's when you
That's when you save me
