

The Worst Part Is Over

Claude Kelly

[Verse 1:]

See, I been to a place
Called hell on earth
Where your body is the same
But your heart really burns
That kind of pain
Is more like a curse
Yeah, yeah

I was down on the ground
But the tears wouldn't come
Could not make a sound
My voice wouldn't budge
Nobody around
They assumed I was done
Yeah, yeah

[Chorus:]

When I got ready to close my eyes
Kiss my chance at love goodbye
Here comes hope like a ray of light
It was your bravest day [?]
You ain't gotta climb this mountain alone
Just take my hand
And I'll wait for you
And you can be strong
Worst part is over
Worst part is over
I'm here to hold you
Worst part is over

[Verse 2:]

See, the man you loved
Ain't when you're up
It's about who sticks around
When you can't see the sun
You proven to be
Someone I can trust
Yeah, yeah

[Chorus:]

Cause just when I was ready to close my eyes
Kiss my chance at love goodbye
Here come's hope like a ray of light
It was your bravest day [?]
And oh
You ain't gotta climb this mountain alone
(Ain't gotta climb this mountain)
Just take my hand
(Take my hand)
And I'll wait for you
And you can be strong
(I'll fight you when you can't be strong)
Worst part is over
(Worst part is over)
Worst part is over
(Worst part is over)

I'm here to hold you
(I'm here to hold you)
Worst part is over
(Worst part is over)

[Bridge:]
You're that extra bit of faith
When I'm giving up
That little boost of strength
When I'm against the wall
And every way you show
That the definition of love
Cause you let me know

[Chorus:]
Oh, you ain't gotta climb this mountain alone
Just take my hand
And I'll wait for you
And you can be strong
(I will fight for you baby and be strong)
Worst part is over
(Worst part is over)
Worst part is over
(Worst part is over)
I'm here to hold you
(Me to hold you)
Worst part is over
(Worst part is over)

See, I been through a place
Called hell on earth
But that part is over
